**CBS Policy:**

## **Environment**

Version: 1  
Date: 1 August 2016  
Authorised by: C. Gale  
Last Reviewed: 1 August 2017

**Department:** ALL

**Effective from:** 1 August 2016

### **Policy:**

CBS is committed to leading the industry in the minimisation of the impact of its operations on the environment. We make this commitment to our employees, customers and the community.

This commitment is achieved through the implementation of the *CBS Environmental Management Strategy* which:

- ensures that our operations are conducted in compliance with state, federal and international environmental legislation
- promote the efficient use of resources and energy
- minimises toxic emissions through the selection and use of our fleet and the source of our power requirement
- actively promotes recycling internally, as well as amongst its customers and suppliers
- ensures that production and distribution of our products has minimal impact on the environment

To support this commitment, this strategy is monitored and regularly reviewed for performance assessment and improvement potential.

We expect similar standards from all those that we deal with and encourage our suppliers, contractors and customers to be educated and take initiative in this area.
